Weber-Isis Vitalon

Description

The form of the Weber Isis Vitalon is based on the knowledge of Sacred Geometry of the fish bladder (Vesica piscis). The geometry is the keystone of creation. There is no lifeform, no life existence without the geometry as model. Sacred Geometry is a symbol of reality in the entire cosmos and is sometimes termed the speech of light. The Weber Isis Vitalon works through its geometric form radiation. The length is 3.61 cm. This corresponds to one half of the cosmic key, the wave-length 7.23 cm. Additionally, a self-cleaning effect is generated by the vibration of 5 grooves, i.e., the Weber Isis Vitalon receives no foreign energy.

The best effect is achieved when the Weber Isis Vitalon is worn on the solar plexus.

The Weber Isis Vitalon can be unscrewed. A small rock crystal ball is located inside with data for the 12 chakra system and an optimal energy flow in the meridians. In addition to the rock crystal ball, homeopathic globules, programmed gem splinters or hand-written affirmations on a small paper or other energy carrier can be inserted. So the desired vibration is permanently transferred into the body energy field.

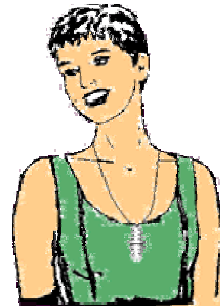

Without additional data, the Weber Isis Vitalon is used for general strengthening of the energy field. The function of the Weber Isis Beamer cannot however replace it!

The time of wearing it on the solar plexus depends on personal need and health, but should not exceed 3-4 hours at first. After becoming accustomed, you can wear the Weber Isis Vitalon for the entire day. Very good results occur with animals that wear the Weber Isis Vitalon on their collar, e.g., with isopathic counter-vibrations against parasites (produced with the Weber Isis Orgone Emitter Complete Set).
