

A detailed photograph of a kitchen cabinetry display. The cabinetry is a mix of light and dark wood tones with ornate, carved details. A central island with a marble top and a lion's head carving is prominent. The background features a patterned wallpaper and a built-in oven with a decorative arch. The overall style is traditional and elegant.

Bottom Left: Bradenton II Nutmeg
Right: Berlington II Maple Cinnamon Chocolate

The Mediterranean COLLECTION

For those who appreciate the unique, The Spice Collection and The Mediterranean Collection offer an array of custom finishes that mimic antique, weathered, old-world finishes.

Because these finishes are applied by hand, it is important to realize that no two pieces will be exactly the same. The finish color and effects will vary from one door style to another.

Available on oak and maple door styles, The Spice Collection and the Mediterranean Collection finishes are for individuals seeking a bold statement.
